# Auditor's Report

---

STATE OF MAINE  
State Department of Audit  
Augusta

April 5, 1944.

To the Inhabitants of the Town of Hartland:

In accordance with the request of your municipal officers, this department, represented by C. G. Hawes and W. E. Burgess, Jr., has completed an examination of the accounts of your town officials for the municipal year ended February 10, 1944

In our opinion, based upon such examination, the accompanying exhibits and schedules fairly present the financial condition of your municipality as of that date, and summarize its fiscal transactions during the municipal year then ended.

The data obtained by us is summarized in the following:

- Exhibit A—Balance Sheet
- B—Cash Receipts and Disbursements
- C—1943 Valuation, Assessment and Collection
- E—Analysis of Change in Net Deficit
- Schedule 1—Reconciliation of Treasurer's Cash Balance

Respectfully submitted,

STATE DEPARTMENT OF AUDIT

Harold E. Crawford,  
Municipal Auditor

## COMMENTS

## CASH

All receipts as recorded were found to have been properly accounted for and the cash for same was deposited in the bank currently, as summarized on Exhibit B.

Expenditures were made by check from warrants drawn by the Selectmen, as summarized on Exhibits B and D.

The cash balance reconciled with the bank statement at the close of the municipal year, as per detail shown on Schedule 1.

## TAXES—PROPERTY AND POLL

The 1943 tax commitment was added and found to agree with the records of the Assessors. The total commitment was accounted for by cash and abatements, or was unpaid as summarized on Schedule 2. According to the records, payments received and abatements made on prior year's unpaid taxes were credited against the proper items and those still unpaid are also summarized on Schedule 2, with the supporting detail for all years being shown on Schedule 2-a.

All payments recorded as received on tax liens have been applied against the proper items and those still unpaid are summarized on Schedule 3, with the supporting detail being shown on Schedule 3-a.

The cash collection of the current year's taxes was 94.7%; while all taxes collected during 1943, both current and prior, amounted to 105%, both as against the current commitment.

## EXCISE TAX

The excise taxes were checked from the copies of the receipts and the amounts specified, had been deposited with the Treasurer. The receipts and disposition of same follows:

1943 Year—Receipts No. 73 to 330 .....	\$842.29
1944 Year—Receipts No. 1 to 100 .....	393.16

---

Deposited with Treasurer (Exhibit B) .....	
and transferred to Net Deficit (Ex. ....)	\$1,235.45

### TRUST FUNDS

During 1943, trust funds amounting to \$3,000 have been withdrawn from savings deposits and U. S. A. Savings Bonds were purchased. The investments on hand were examined and the detail of these items is shown on Schedule 5. All income appeared to have been properly accounted for.

### BONDS PAYABLE

Payments of \$4,000 was made on outstanding bonds from the regular appropriations.

### NET DEFICIT

Reference to Exhibit A indicates that as of the close of the municipal year there was a net deficit in the amount of \$10,370.53, as compared with a net deficit of \$17,412.04 shown the year previous. This represents a beneficial improvement of \$7,041.51, the analysis of which is shown on Exhibit E of this report.

### GENERAL

Our test check of paid invoices indicated they were proper charges and correctly recorded.

The Withholding Tax records were examined and appeared to be in a satisfactory condition.

The records of dog licenses issued by your Town Clerk showed collection in the sum of \$154.80, which amount was paid to the State Treasurer.

With the exception of cash and trust funds, no external verification was made of your asset and liability accounts.

# Superintendent of Schools Report

---

Hartland, Maine, Feb. 10, 1945

To the Superintending School Committee and the Citizens of the Town of Hartland:

It is with pleasure that I report on the conditions of your schools for the sixth year.

We have had a total of 224 different elementary pupils (including the 8th grade) registered during the fall term. This enrollment has been fairly well distributed between the eight teachers, with the exception of Mrs. Steeves, where the sub-primary and first grade have been together. There doesn't seem to be any solution to this situation until such time as more room is available for another grade and another teacher.

Attendance has been good except for a few instances, most of these cases have been sickness. School has been operating on a fairly regular schedule. We have not lost much time on account of weather. There has been days when it has been doubtful about the advisability of having school. However, it has been my experience that most children will be out playing in the storms when they would be much better off in school. I do know that pupils and teachers don't like to make up time on Saturdays or during their regular vacation. We can expect to have school when the buses can make their run.

The pupils have been given special attention regarding health this year. The school physician has given each pupil a physical examination, defects were noted and many corrections have been made. Examinations of vision, hearing and the patch test for T. B. has been given by the nurse and the teachers. Reactions to the T. B. test have been x-rayed.

The general conditions of the schools are good. If we can maintain our present standards for the duration of these critical times the town will be very fortunate.

## Budget

In planning the budget for next year it seemed advisable to plan on the purchase of a new school bus to be used on the

North Hartland run. The present 1936 Chevrolet is fairly well worn out. The cost of repairs to the present motor is extensive and a new motor for this particular model cannot be purchased.

The estimated income for next year outside the annual appropriation is \$5000.00. The estimated expenditures including \$3000.00 for a new bus is \$18,000.00, this would require an appropriation of \$13,000.00.

In the High School Tuition Account it is estimated an income of \$1400.00 and an estimated expenditure of \$6000.00 so we need an appropriation of \$4600.00 in this account.

Other appropriations requested are as follows:

Repairs and Insurance .....	\$ 570.00
School Physician .....	125.00
School Committee .....	75.00
Supt. of Schools .....	500.00
Rent of Randlett rooms .....	480.00

In conclusion I wish to say a few words in regards to post-war planning for education. We are hearing and reading a great deal about post-war planning and what our Federal, State and local governments are doing to get ready for the period after the war. The town of Hartland has made a beginning toward financing a new school building. This effort should be continued as extensively as possible so that the full burden of finances won't be thrust upon the town at one time in the future.

I wish to offer the suggestion that a post-war building committee be appointed at this time. They should go to work immediately making plans for the buildings so that when the proper times come the town will be able to take advantage of any and all assistance that may be offered by outside sources.

In conclusion may I express my appreciation for the many courtesies extended me during the past year.

Respectfully submitted,

HAROLD E. CARSON, Supt. of Schools

## School Physician's Report

---

The general health of school children in the Town of Hartland was markedly improved in contrast to previous years.

The majority of correctable disabilities were remedied and the physical conditions altered.

Body hygiene was noticeably better due to efforts of teachers, parents and children to correct faulty cleanliness.

The State Department of Health is to be commended for their part in the school program and for the specific work of County nurses in maintaining health tests and programs.

Loss of time due to illness has been decreased and in every way the teachers and pupils have thereby profited.

Let us continue the good work of "PREVENTION" in the years to come, that it will not be necessary to have our children "CURED" of the various diseases that could have been prevented by our fore-sight.

P. R. BRIGGS, M. D.

# Report of Public Health Nurse

January 1 to December 31, 1944

---

## Bureau of Health Nursing Service

Each child is entitled to a right start in life, whether his parents can afford it or not, and he should have a doctor's care during his crucial pre-school years.

Weak bones, poor teeth and eyes may be formed before a child is born. In an effort to prevent these conditions, the Public Health Nurse endeavors to see the expectant mothers as early in pregnancy as possible, especially those expecting their first babies, to insure that they have regular medical care and adequate health supervision.

In addition to home visits, the Bureau of Health offers Child Health Conferences where infants and pre-school children are examined by a physician. At these conferences, if several are held during the season, immunizations against whooping cough, smallpox and diphtheria are offered for a small charge. Services of a dentist, dental hygienist and a nutritionist are sometimes available. One of these conferences was held in your town this Summer. This conference was especially for children who would be starting school in the Fall. Only eight children attended. Three were immunized against diphtheria and three had the smallpox vaccination. This conference was planned through the efforts of Mr. Carson, School Superintendent and some of the teachers.

In the schools, examinations by the physician, vision and hearing tests are not enough. Defects when found, must be followed up and corrected. Conferences with the teachers and superintendent aid in promoting the growth and development of the school child, and in planning health protection services. Projects carried out in your schools this year were the audiometer hearing tests and a tuberculin skin testing program, to which all interest persons were invited. Motion pictures on tuberculosis and dental work were shown to all schools in November. A project which would greatly increase the health protection

of both school and family, would be the development of a plan to control the spread of the common cold.

The services of the Crippled Children's Clinic has been made available to this community.

The facilities of the State Sanitorium for Tuberculosis have been used by those who were referred there for diagnosis, care or x-ray. Since tuberculosis is one of Maine's most serious health problems, the program of tuberculosis control is being given emphasis at this time.

The work of the nurse would be strengthened and a great deal of time saved for the town by the organization of a permanent Health Committee. With such a committee your Public Health Nurse could, another year, plan better health protection for your community.

LOUISE SKELTON, Public Health Nurse

### PRESERVE THIS REPORT

---

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.
